Alec (Bunk) Wurth sustained a serious spinal cord injury while playing rugby on February 25, 2006, and his current status is that he has no movement from the shoulders down.

Family, friends and especially Bunk are confident that through his hard work and determination, faith, prayers and modern medicine Bunk will recover. He is now embarking on the long road to recovery. All your prayers and encouragement are welcome.

Come enjoy some pizza and beer while helping Bunk on his road to recovery.
